Measure N Update

A Long-Term Solution

- Enrollment growth and school overcrowding is a long-term problem
- We cannot settle for a short-term solution
- We have diligently sought a solution to serve our community for the decades to come:
 - Superintendent’s Enrollment Growth Task Force
 - Facilities Master Plan Committee
 - 10th Site Subcommittee
 - Community forums, workshops and meetings

- LASD identified three options to address future enrollment growth with Measure N:
 - Purchase additional land
 - Configure public land for shared use
 - Use existing LASD land
- Community's preferred solution: identify a 10th school site

Finding a 10th Site

- 10th Site Subcommittee has created publicly adopted criteria for a site
- Finding suitable land that meets these criteria at the right price has been difficult, but we have been diligent

Progress Made

- We pursued shared land-use with the City of Los Altos until the City voted to halt discussions
- Currently exploring possible solutions with the City of Mountain View
 - City of MV is garnering funds from developer of 400 San Antonio for significant community benefit and park in-lieu funding; some funds may be available to help in acquiring a school site and/or adjoining open space

- Concurrently, we continue to consider other options expanding our available acreage
- Secondary option is to utilize existing land to accommodate enrollment growth

- Citizens Oversight Committee
 - Continue quarterly meetings
 - Annual report to board coming on June 12
- Construction Review Committee
 - Committee formed and met twice
 - Temporarily on-hold awaiting outcome of 10th site search
- Superintendent's Committee meeting with BCS representatives
 - Continue to meet monthly

- District staff continues to meet with City of MV staff to clarify how and to what extent the City of MV can do to help make the possible acquisition of property in MV affordable
- Continue to evaluate any new potential sites
- Under 5 Year Agreement, LASD needs to collaborate/consult with BCS, starting in 2017/18, re: terms at expiration of agreement
